

# PATH DESCRIPTION

## Preliminary remarks

This route description is no substitute for your own responsibility for safety on the way to and from the Impact Hub Vienna.

Please also pay attention to your personal path.

After leaving the subway station, you can also use the barrier-free navigation app “Waveout” as an alternative.

The additional features make this app more suitable for pedestrian navigation.

## The U3 station Zieglergasse

Zieglergasse is an underground subway station with two platforms, one above the other. The side platform of the U3 line towards Ottakring, platform 2, is three floors below street level.

The side platform of the U3 line towards Simmering, platform 1, is two floors below street level.

- Path description from the corner of Mariahilfer Strasse and Andreasgasse
- Once you have reached Andreas Gasse, follow the left building wall.
- Follow the path for 230 meters
- Be careful: the wall of the building is repeatedly interrupted by garage entrances and business entrances.
- At the next corner – Lindengasse and Andreasgasse – cross the street in the direction you are walking.
- When you reach the next building wall, turn left and follow the path for 70 meters.
- In front of the entrance to the Impact Hub Vienna is the reverberating entrance to the neighboring building, which interrupts the wall.

- The destination is on the right.
- It is another 30 meters from the entrance gate to the entrance of the Impact Hub Vienna.
- At the entrance there is a step up and a metal ramp.
